

QABA Procedure: Policy Development, Maintenance and Approval 5.0

The purpose of this policy is to ensure that the QABA® undergoes strict development, review and maintenance of all polices that are approved and set in place by the QABA® Credentialing Board.

Policies are reviewed at least annually with the QABA® policy committee reviewing, updating, and approving them thoroughly annually during their policy meeting.

Each policy that is developed is reviewed and adjusted by the policy committee with final approval of the policy by the full Board of Directors.

QABA® Policy Committee Members are identified each year by members of the board.
